THE AMERICAN PRESS AND THE AMERICAN DEBT.

One of the most perplexing problems for satisfactory solution is perhaps a national debt. Every financier and political economist has a scheme to offer that will liquidate in a given time the whole of the country's liabilities; but there is always some fatality that stands in the way, and in stead of the debt being diminished it is gradually on the increase. We have seen the various projects that have been at different times started in England for the purpose of paying off, or at least reducing the great national liability; but the burden is on the whole rather accumulating than growing less. The United States has been a nation remarkable for its ingenuity, as well as for its "go-ahead" peculiarities; but in nothing will it show its pre-eminence more than it matters of finance, if it only carries out the intention as expressed by a portion of the press and pays its large debt in the present generation. The liabilities of the Republic are stated to be in round numbers, three thousand million dollars, or about two-thirds the debt of Great Britain; but the high rate of interest which the United States is required to pay makes the annual burden considerably larger than that of the United Kingdom. This, with other things, has brought forward all sorts of schemes to pay off the national debt rapidly if not indeed at once.

The most remarkable of these plans forward is that suggested by New York Herald. This journal makes a calculation that one hundred and fifty thousand contributions of twenty thousand dollars each, would pay off the nation's liabilities, and offers to contribute \$40,000 as its quota. Commodore Vander bilt, actuated by the same desire to see the debt at once liquidated, offers to pay \$500,-000, and others have made similar propositions. All this, looking at the matter casually, would appear to be extremely patriotic; but the New York Tribune puts a very different construction on the matter by showing that the sums proffered are far below the amounts which the proposers will really have to pay. The actual value of the property of the country the Tribune asserts is fifteen thousand million dollars, and as three thousand million dollars has to be paid out of this sum, it necessarily follows that the tax will have to be twenty per cent. on the value of the property; but the largest amount offered does not reach ten per cent.; while Vanderbilt's offer of \$500,000 is but a fortieth of his estate, and the Herald's \$40,000 but twenty-fifth of its proprietor's. The Herald thus details its scheme : "If the national debt were paid to-day we would be as we were before the war. There would be no income tax, and the prices of the necessaries of life would not be so high as they now are. It is estimated that this would make a difference of three thousand dollars a year to every man who has an income of twenty thousand dollars a year. He would save one thousand a year in the difference of prices, and two thousand by not having an income tax to pay. If he invested twenty thousand dollars at seven per cent he would get from it four teen hundred dollars a year; and the differ ence between fourteen hundred and three thousand is consequently the sum saved every year if there is no national debt. That sum on the given number of contributions, as compound interest, will make, in the speci-

fied time, a sum equal to the national debt." The American national debt will not we anticipate, be paid off by any such voluntary subscriptions as are propounded by the Herald, and if the people are wise they will be in no great hurry to liquidate it by this or other schemes. In a country like America where population increases so rapidly it would be folly for the present generation to burden itself with the payment of the debt. In twenty years the population will probably be double what it is at present, and the liabilities of the nation, will there. fore be spread over a much larger field. The debt that now looks monstrous in its proportions will speedily become one of common-place dimensions. The present high rate of taxation accompanied by the great reductions in the expendi-ture of the country, will enable the Government to meet all pressing demands. Outside however, this part of the question, we find that the most "democratic" journal in New York is venturing on ground even too dang-erous for the most ultra Tory in England. The Herald maintains that the future taxation should regulate the future voting. "The Internal Revenue law" says this democratic economist, "fixes the intrinsic value of a man at ten thousand dollars by exempting all incomes under six hundred dollars, which is the interest of ten thousand dollars for one year at six per cent. It follows that for every six hundred dollars of taxes which a man pays he should have one additional vote." The New York Herald has never been a paper remarkable for either consistency or sense, but we think this last idea of engrafting on a Republican form of Government a franchise that doubles and quadruples a man's voting power according to the depth of his pocket, is one of the most extraordinary of its sensational aberrations. It shows, however, to what extent the war has revolutionized the opinions of even the fillibustering and lawless class of which the Herald was the great exponent, but it at the same time shows how men or journals without fixed principle jump from one absurd extreme to the other.

A CARD.

To the Editor of the British Colonist,—Sir.—A paragraph appeared in the Chronicle of yesterday respecting a suif for damages brought by W. H. Hartley against M. Carey, which states that the defendant beat the plaintiff in a most violent manner on the head with a stone, thereby endangering his life and inespeciating him from business. Now, sir, the sensational Chronicle man might have allowed this matter to pass without attempting to prejudice either side, for Hartley suffered very little and no loss of time from business, as the day following the 5th July he was eard-playing in front of his bar and attending to his business. Many who will read the Chronicle knowing nothing about the affair will naturally conclude that Carey committed a violent assault without the slightest provocation, whereas it is quite the opposite. It was Hartley who assaulted Carey, because Carey would not drink with him and another person who was with Hartley, and who also deserved a little chastisement. I distinctly heard W. H. Hartley call Mr. Carey off the plaiform, and ask him to drink, and because he (Carey) would not drink, I saw Hartley have been a compared to the control of the plaiform, and ask him to drink, and because he (Carey) would not drink, I saw Hartley him, and afterwards I saw Hartley hit Carey as evere blow on the n-2so, causing it to bleed. Having heard that some people assort that Carey seted wrong in whipping the man who insulted him, my tellef is that if any other person received the same amount of insult which Carey did, he would be disposed to prevent Mr. Hartley from taking a quite game on the following morning. Both men are strangers to me, but I like to see each side of the question plainly told,

I remain, yours, etc.,

## A CARD.

To the edition of the british colonist,—

Sra,—My attention being called to a "Card" in this morning's Colonist regarding the license question in Johnson street, and signed "P. Manetta," I deem it proper to answer it, presuming that I am the person referred to as employed by him, and more particularly as I am fully acquainted with the facts of the case.

There are always two sides to a story. In the first place, Mr. Manetta states that he has had granted him ro less than three retail liquer licenses, one for Yates street, one for Johnson street, and one for Sooke. I will take this for granted, but I would ask Mr. Manetta in return if the Magistrates, when they so liberally granted him the Johnson street lincness, also granted him a "roving commission" for the sale of liquors, or did they restrict the license, as is usually done, to defined premises. When the Johnson street license was granted, it was for the House standing on the corner of Oriental Alley and Johnson street ilicense, and which had no connection whatever with the premises sought to be used as a saloon next door to me. If Mr. Manetts would continue to keep the public business in the house at the corner, I should be satisfied. But what does he do? Ho sells out by public auction, and lets the premises at the corner for a clothing store, and then commences to sell liquer in a sharp in Oriental Alley, under the same license. To this also the victuallers in Johnson street would not object; but Mr. Manetta not being yet satisfied, makes another move, viz. to abandou this shanty and come again into Johnson street would not object; but Mr. Manetta not being yet satisfied, makes another move, viz. to abandou this shanty and come again into Johnson street would not object on the ground that he was a particular friend of Manetta's, and would not sign again thim, but acknowledged the fairness of our complaint. He further asserts that on leaving his employed to the ground that he had also not a large sum of money in Victoria that such outlay justifies him in a TO THE EDITOR OF THE BRITISH COLONIST .-

## Holloway's Ointment.

All the medicines in the London dispensaries would barely benefit, much less cure, any chi onic cases of contracted or stiff joints; whereas if this invaluable olithment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail. Scorbutic Humours.—Scald Head and Skin

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment, if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Grave
In any of the above complaints more benefit may
be derived in twenty-four hours by adopting the
following simple means than is frequently brough a
about it. six months by any other treatment. In
bad cases if the Ointment be rubbed into the small
of the back over the region of the kidneys, it will
quickly penetrate, and, in most instances, give
immediate relief. Six or eight of the Pills should
be taken nightly according to circumstances. Disorders of the Kidneys, Stone and Grave

be taken nightly according to circumstances.

Diptheria, Sore Throuts, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed until the path at is beyond recovery. It is severeign remedy for sore throat. Settled Coughs or wheezing will be promptly removed by rubbing in this unguent. Mothers should rub it into the chest of heir infants whenever there is any hoarseness, ightness, or other affection of breathing.

And Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Fills. The path, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rhoumatism.

makes its cures complete.

Gout and Rhoumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the paingiving poison which vitiates and inflames every issue teems in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouly and rheumatic maladies. Both the Ointment and Pills should be used in the following cases:

THE RIFLE CONTEST - The detachment from the New Westminster Volunteer Rifles who are to shoot against our Volunteers tomorrow, are expected down by the Enterprise to-night, and every effort is being made by the Victoria corps to give them a suitable and hospitable reception. On the arrival of the steamer the corps, headed by the band, will march down to the wharf to receive their brethren in arms, and will escort them to their quarters in the city. In the evening the grand entertainment will be given them at the theatre, commencing at 8 o'clock. The programme will consist first of a vocal and instrumental concert in which the principal musical talent of the city will take part; second, the bayonet exercise, by a detachment of the Victoria Rifles, which

A strong musicer of specta-tors, especially of ladies, is expected at the rifle match to morrow; our volunteers are sure to win if bright eyes are there to mark their prowess, and sweet smiles ready to reward their triumph.

THE MISSING MEN-Alten Francis, Esq., U. S. Consul, informs us that there were five persons on board the plunger Blue Bounet when she left this harbor, who are all missing. Their names are as follows : Christian Gable of New Orleans, John Madden of Steilacoom, W. T., —Clark, recently of San Juan Island. An American, name not known, and an Indian. Mr. Madden has a wife and five children at Steilacoom and was on his way thither to bring them to this city.

#### LETTER FROM NANAIMO.

TO THE EDITOR OF THE BRITISH COLONIST TO THE EDITOR OF THE BRITISH COLONIST Sir.—A letter has appeared in the Daily Chronicle, dated Nanaimo, June 15th, and signed "Video." That letter is a mere tissue of falsehoods and absurdities from beginning to end, and is evidently dictated by personal ill-will against two gentlemen who are much and deservedly respected here. The great part of "Video's" observations are unworthy of notice; but several are so face tious that one really feels obliged to him for them. Thus the charges of incapability and inflation brought against the Stipendiary Magistrate suggest so forcibly the idea of a blown bladder attached to the top of a high blown bladder attached to the top of a high blown bladder attached to the top of a high pole, that it is impossible to keep from laughing at "Video." The introduction of the Lord Mayor of London isla remarkably apposite and entertaining thing. If that disquiguished functionary would actually pay us a visit, we should be excessively happy to see him, but we hope he would bring his own provisions, for he would find clam-obowder as had a substitute for turtle soup as "Video's" letter is for sense or veracity. I am treating that letter with more gravity

patiently he enters into every case that comes before him, and how impartially he administers justice without respect to person or rate. With regard to "Video's" imputation on both our magiatrates of conniving at the sale of whiskey to Indians, all I have to say is that it is untrue. Candour is sometimes preferable to politeness.

In respect to the Indian who committed suicide, the facis are simply these: On the 14th of Juno last an Indian, being in a maddened state of intoxication, kicked a klootchman severely in the face, and flourished a knife at all who approached him. The Indian police were obliged to knock him down before they could secure him; they brought him to Gough, the constable, at the door of the jail, in which he was locked up as much for his own safety as that of others. A few hours after, Mr. Gough, on going to the jail, found the Indian lying on the floor in an apparently lifeless state, with his leather belt buckled round his neck. Mr. Gough immediately went for the doctor, who examined the lock of the particular and program of the clear of the Chelster Cup. A telegram to the Oregonian dated July the body and prognaged life to be axing. apparently lifeless state, with his leather beit buckled round his neck. Mr. Gough immediately went for the doctor, who examined the body and pronounced life to be extinct. All the facts came out on evidence at their quest held the next day before the stipendiary magistrate and coroner and twelve respectable jurymen. The doctor stated his opinion that death had been caused by the combined effects of, strangulation, and intoxication. The verdict was that the deceased died by his own hand, and no mention was made of any ground of complaint either fagainst the authorities or the person in charge of the jail. The magistrate addressed the Indians, a large number of whom were present, on the fearful effects of drinking ardent spirits, and adverted to the numerous instances of must be and their families by the practice, which he trusted they would henceforth avoid, and preserve the good name they at present possessed.

He expressed a hope that they would reflect on the evils they brought on themselves and their families by the practice, which he trusted they would henceforth avoid, and preserve the good name they at present possessed. The magistrate also intimated that every endeaver had been made to discover the person who had sold the liquor to the Indian, and that if the offence could be proved against the man alleged to have done so, he would be sentenced to eighteen months imprisonment, as this would have been his second offence. At the conclusion of his letter "Video," in reference to the unfortunate creature who committed suicide, desires us to a mark the Roman courage and Roman pride that prefers immediate desit to a life of shame."

Good gracious! Siwashes are uncommonly like Romans certainly! I recommend "Video," to follow so lofty an example, and if he have dealed that the the table of the state of the content of the present would not live wo days. THE "TWO THOUSAND GUINEAS STAKES.

THE VOLUNTEERS' CONCERT TO-NIGHT in the theatre will probably be one of the most largely and fashionably attended entertainments ever given in this city. In addition to the musical attractions set forth in the programme, the evening will conclude with a capital burlesque. Having been present at a rehearsal yesterday we can safely say that all who do not witness this really clover a matter effort, will miss a rare treat. The ever popular Bombaetes Furioso is the title of the farce, but it has been so entirely rewritten and transmogrified with ingenious local hits and adaptations that nothing but the plot remains. Every topic of the day is touched upon and introduced without any straining, evidently by a master hand. The Church Reserve, the empty Treasury, auctioneers', real estate, and other taxes. Bunster, William the insect, Culverwell, the Mayor, the corporation, and various other public matters and characters are introduced with the pict in blot in such a manner as to excit the risible organs of the most sedate. Very few places we believe remain unscoured.

We were rather amused on glancing down the paragraph to find the following sentences: "A party of prospectors to the party of prospectors to the paragraph to find the following sentences: "A party of prospectors to the paragraph to find the following sentences: "A party of prospectors to the party of prospectors to the paragraph to find the following sentences: "A party of prospectors the added by a Mr. Foley, (the italies are ours) was a good fourth, beaten only a length from the winner; indeed, a lady's crinoline would almost have overed the first four. The merits; whilst Zambesi, our other selection, was a good fourth, beaten only a length from the winner; indeed, a lady's crinoline would almost have covered the first feur. The victory of the Freuch party gave no satisfaction, except to those who backed Gladiateur, as people remember the shabby game played last year with the superb Fille de l'Air, who last year with the supero Fille de l'Alf, who after being beaten out of sight for the "Guinens," won the Oaks with ease, and had to be executed to scale by a posse of prizefighters. Indeed, the French horses always win when not expected, and when favorites are always deteated. Had Lidding—the for Archivester, public through there vorites are always defeated.  Tuesday, the grand day, drew crowds of visitors to the Heath. The weather was fine and pleasant, but somewhat marred by a high wind, which covered everything and everybody with white dust. A large number everybody with white dust. A large number of fashionables were present, and betting was carried on with tremendous spirit, Bedminster, Breadalbane, and one or two others being backed for heavy sums. Among other bets, Lord Stamford laid £2200 to £200 against Gladiateur, and had the mortification to be second to him with his own horse Achimedes, whose verting price was \$1000. Achimedes, whose yearling price was \$000 grineas. We need not here particularise the ginners. We need not here particularise the ins and outs of the speculation on the various favorites, as their prices at starting are given in their place below. Three small and contemptible races were first decided, and then came the climax of expectation in the preparations for the great event. Eighteen horses showed at the post, the only absences from the twenty colored on the card being Chattanooga and Konig. We here repeat that, as Chattanooga was not intended to run, it was a farce and deception to have his name colored on the card, and such tortuous policy we can only depreciate most earnessly. name colored on the card, and such tortuous policy we can only depreciate most carnestly. It is greatly to be hoped the horse will be beaten thoroughly for the Derby, which may teach his stable a lesson not unwholesome. There were eight false starts, which greatly tried the temper of horses and spectators, and which we thack materially influenced the result of the race. The betting at starting was 7 to 2 against Bedminster, 4 to 1 each against Breadalbane and Liddington. 6 to 1 against Breadalbane and Liddington, 6 to 1 against to Tagainst Archimedes, 20 to 1 against Kangaroo, 100 to 15 against Gladiateur, 100 to 7 against Archimedes, 20 to 1 against Ariel, 30 to 1 against Zambesi, 40 to 1 against Jack-'o-Lanteur, 100 to 1 against Joker and Tiben, and 1000 to 5 Tilt. The time was 1 min. 38 sec. The other races consisted of small plates, for which few and indifferent animals contended.

The great attraction of Thursday's racing was of course the One Thousand Gunea fully known whether the diggings would pay or not.

THE CEUR D'ALENE MINES-The Walla

Walla Statesman says that recent reports

from these supposed mines are very discour-

aging. Many, it is said, who have been

prospecting for gold were unable even to find prospecing for gold were unable even to that a color. There is nothing very definite from that quarter yet, as in fact all advices from there have been extremely vague and uncertain from the beginning. The Statesman publishes the following letter: HANGMAN'S CREEK, June 25, 1865. The news from Cour d'Alene is very un favorable. In fact, Similkameen was a big thing compared to it. However I am going on, as I am within sixty miles of the Mi and nothing else to do but prospect. If thi

affair does fall through I am going further. It is now said that the diggings are on the Little Blackfoot, or Prickly Pear, or Saskattohewan, or in some other distant region. I will write you very fully from the Mission, or as soon as I know of anything definite from personal knowledge.

P. S.—The miners it is said, are threatening to hang Wilson. I have this from many sources. So much for trying to find gold mines for the public benefit.—Oregonian.

DARING POST-OFFICE ROBBERY .- On Thu day evening two individuals, having all the outward characteristics of gentlemen, stayed at the White Hart, Eastover, near Bridge at the White Hart, Eastover, near Bridge-water. They hired a conveyance in the morning, in which one of them went to Nether Stowey, and, presenting himself at the branch office, represented that he was an inspector on a tour of inspection. The poss-master let him have the run of the estab-lishment. He overhauled the office, and suggested a great many alterations, amongst others the necessity of having new forms others, the necessity of having new forms down for issuing Post-office orders. He said down for issuing Post-office orders. He said to the postmaster, "I will take away these, just leaving you a few to go on with." He took away 300, and then went to a retired inn, about two miles away, made out fifty orders of £10 each, payable to different names, on the general and branch offices of Loud an opportunity of slipping them into the bag, waited till it was seeded, came on to Bridgewater, joined his confederate, took to Bridgewater, joined his confederate, took the night matt to London, and the following morring presented himself at the various offices to which they were made payable, and got off with the booty, about £500.—

Hollowat's Pills are decidedly the best remedy for all disorders of the stomach and bow-ols, the liver and kidneys. They act with so de-cided an effect, and yet so gently, that people of the most delicate constitutions may take them the most delicate constitutions may take them with the most perfect confidence. They do not contain one grain of mercury or other noxious substance, being composed exclusively of rare balsams. They are, therefore, equally safe and efficacious, and as a family medicine, nothing yet invented or discovered can be compared with them for a moment. With these inestimable Pills at hand, together with the printed directions affixed to each box, no other medical advice or assistance can be needed in any ordinary case of sickness.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skim—Ringworm, scurry, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are cradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandlar swellings, ulecrous wounds, rhoumatism, contracted and stiff joints. These medicines operate middly and surely. The cure effected by them is not temporary or apparent only, but somplete and permanent.

plete and permanent.

Holloway's Pills and Ointment— Deranged Stomach, Sick Headnehe.—Our comfort, happiness, and security depend on the knowledge that most diseases originate from apparently attriffing beginning, and that the large proportion of them spring from inattention to the state of the etomach. Professor Holloway has turned his knowledge to useful account by discovering medicines which cure, without exception, the attendants on disor-tered digestion. They ward off, likewise, the torturing, sick headsche. The Ointment should be well rubbed, twice daily, over the stomach, liver and bowels; to them it penetrates, and, alided by the Pills, it immediately works a revolution as establishes percet digestion.

Holloway's Pills.—Billious affections and stomach complaints, induced by atmospheric heat or too liberal diet, if not early checked, are often attended with serious consequences. When anyone finds his ideas less clear than usual, his eyesight dimmed and his head dizzy, while he is indisposed for all exertion physical or mental, he may be quite sure that he is in immediate need of some cooling and purifying medicine. Let h.m. send at once for a box of Holloway's Pills, after a few doses of which his head will be clear again, his spirits be clevated, and all his energies be restored. Printed directions for the guidance of patients in the use of this admirable medicine are affixed to every box.

HOLLOWAYS PILLS .- General debility, low

Holloway's Pills.—Pure blood. As this vital fluid, when in a healthy state, austains and renovates every part of the living system, so, when it becomes impoverished or impure exerts a precisely contrary effect. It is abundantly manifest that any medicine which does not reach the circulation can never exterminate the disease; but any preparation capable of exercising a sanitary influence over the blood, must with it be carried to every living fibre of the frame. The lungs, heart liver, kidneys, and skin, all receive benefits from its more wholesome candition. Holloway's purifying Pills operate directly, powerfully, and beneficially, upon the whole mass of blood, whether venous or afterial. They strengthen the stomach, excite the liver and kidneys, expel disease and prolong existence.

Holloway's Ointmant and Pills.—Fistu-

prolong existence.

HOLLOWAY'S OINTNENT AND PILLS.—Fistulas, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointnent after fomentation with warmwater. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner there inestimable remedies are used the more certain is success; yet none should despair, hopeless cases hate often yielded, and the sufferer has been saved a painful death. In exercitations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are sepscially beneficial in relaxing and duration.

Holloway's Pills.—A Remedy for Billous and Liver Complaints.—Those who suffer from bile and liver complaints should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, remove all impurities, give a healthy action to the liver, and strengthen the stomach. If bilious at tacks be allowed to continue without using such a preventative, more serious casualties may arise, and the sufferer be consigned to a bed of sickness Holloway's Pills are an extraordinary remedy acting immediately in the removal of acidity of the stomach, indigestion, dobility, and nausea preparing the food thoroughly for assimilation rendering each tributary organ perfect in its function, and stimulating the kidneys

Disorders of the Kidnoys, Stone and Grave
In any of the above complaints more benefit may
be derived in twenty-four hours by adopting the
following simple means than is frequently brough
about in siz months by any other treatment. In
bad cases if the Olatment be rubbed into the small
of the back over the region of the kidneys, it will
quickly penetrate, and, in most instances, give
immediate relief. Six or eight of the Pills should
be taken nightly according to circumstances. Printing,

and Ulgers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ontomert, when it is used according to the printed directions, and assisted by appropriate doses of the Fills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore make site cures complete.

A L.I. PAIN, VONITING AND DISTRESS A ceases in a lew minutes after taking a dose of that wonderful SEALTIVE ANODYN and ANTERS MODIO remedy. CHLORODYNS discovered by Dr. J. Collie Browne M. R.C.S. L., (ex. Army Medical Stafi,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Blocmsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it invaluants. It relieves pain of any kind, soothes the restlessness of lever, and imparts the mostre treshing sleep, without producing or leaving any of the unpleasant effects of optum.

Earl RusesLL has graculcusly favored J. T. Daventhe unpleasant effects of optum.

Earl Ruseall has graciously favored J. T. Davenport with the following extract of a deputch from Mr. Webb. H. B. M. 's Consul at Manilla, dated Sept. 17. 1861;—"The remecy most efficacious in its effects (in Epidemic Cholera) has been found to be CILLORONYRS, and with a small quantity given to me by Dr Burke I have saved several lives." Earl Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging learfully, and that the onar remedy of any service was CILLORONYRS.—See 'Lancet,' December 31, 1861.

"So strongly are we convinced of the Immense value of this remedy, that we cannot too foreibly urge the necessity of adopting it in all cases." From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Astima and Dyseniery." To it I fairly own my restoration to health aftereighten months severe suffering, and when all other medicines had failed." cines had falled."
